

# MULTICORE®

NEW

## General information

**MULTICORE® is a combination of chopped strand mat (CSM) stitched on both sides of a layer of polypropylene core.**

## Types of MULTICORE®

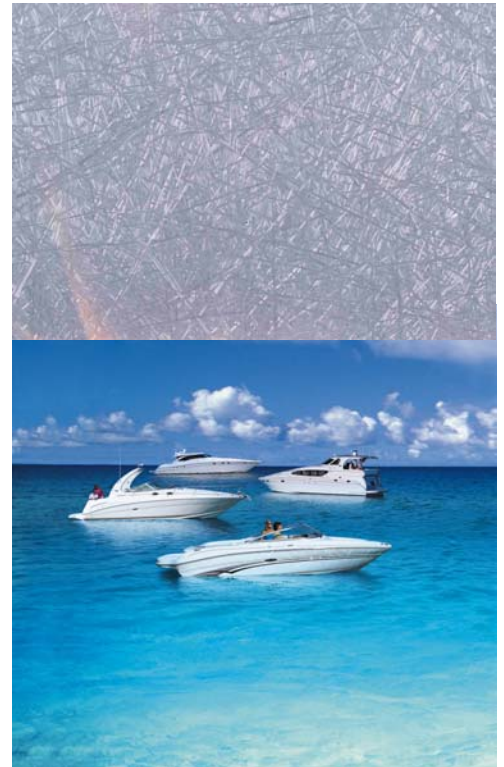

S...-V...-S... = a combination of two layers of chopped strand mat (CSM), stitched on both sides of the polypropylene core.

## Methods of use

MULTICORE® is recommended for the production of composites in RTM, RTM Lite, Infusion and Compression molding.

## Advantages

- ✓ Good conformability.
- ✓ Wets out very fast in RTM and Vacuum Processes.
- ✓ Provides lower processing time.
- ✓ Works well with most resins.
- ✓ Balanced construction.
- ✓ Excellent surface finish.

# MULTICORE®

## End uses

- ✓ Boats and jet skis
- ✓ Chemical Engineering
- ✓ Automotive parts
- ✓ Panels
- ✓ Bath and shower tubs

## Standard Product List

TYPE	WIDTH (cm)	CSM (g/m <sup>2</sup> )	CORE (g/m <sup>2</sup> )	CSM (g/m <sup>2</sup> )	TOTAL WEIGHT (g/m <sup>2</sup> )
S300-V180-S300	125	300	180	300	780
S300-V250-S300	125	300	250	300	850
S450-V180-S450	125	450	180	450	1080
S450-V250-S450	125	450	250	450	
S600-V180-S600	125	600	180	600	1150
S600-V250-S600	125	600	250	600	1380
